The GARDEN ECHO

PUBLISHED BY THE JOURNALISM STUDENTS OF

GARDEN HIGH SCHOOL

Oakwood, Virginia

Remembering . . .

LD
7501
.02
G2
1958

Remember our first high school days. . . didn't that second-period teacher give us a time. . . all those "hard" tests we've had. . . but we really didn't have time to study, with a ballgame last night. . . and after we stopped for something to eat, it was--well, pretty late. But we won the ballgame, and that's what mattered.

Remember the games we lost by just one point--and those we won by two points. . . we screamed our heads off. The team gave us all it had, and we backed it all the way. . . fighting for G.H.S.

Remember all the assistance the teachers gave us. . . helping without pushing. . . somehow, making us believe in ourselves.

We've worked hard. . . sometimes. . . and played hard. . . all the time. . . and loved school even though we hated to admit it. . . remember?

To satisfy the longing to forever remember all this and more, we give you an echo of your days at Garden High, the GARDEN ECHO.

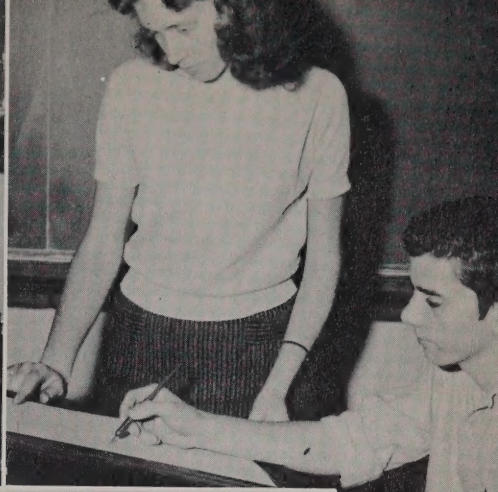
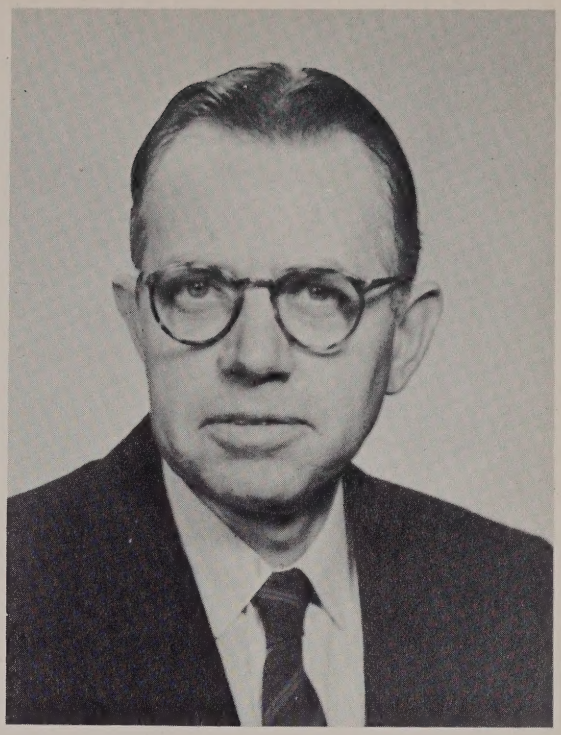
PROPERTY OF
THE LIBRARY OF VIRGINIA
RICHMOND, VA



The staff of the Gardener and the GARDEN ECHO worked faithfully to meet paper deadlines and produce the annual.

To Our Devoted Parents, Who Have Been Our Mainstay During All Our Years, We, The Class Of '58 Dedicate This GARDEN ECHO

Percy V. Dennis
Our Superintendent



B. T. Quillen
Our Principal

Administration

From Our Principal.....

Recently we have witnessed the beginning of the space age. Unlike the stone age, the bronze age, the iron age, or the machine age, which preceded it, this era is fraught with the greatest of danger for mankind.

Before the Russians made their "breakthrough" into space travel, they concentrated on their educational system, so that they now boast of turning out twice as many scientists and engineers as the United States in a year. At the present moment our national security depends more upon the quantity and quality of the products of the American school system than upon any other single factor. In a very real sense our schools are our first line of defense. Only by upgrading the American school system as a whole can we successfully meet the Russian challenge. What is to be our answer?

Remember how the pep rallies before games gave us a big boost in school spirit. . . . . .

WE TREASURE BOTH THE *Routine*

In physics, scientific problems are brought to light.

In typing, students are trained for commercial vocations.

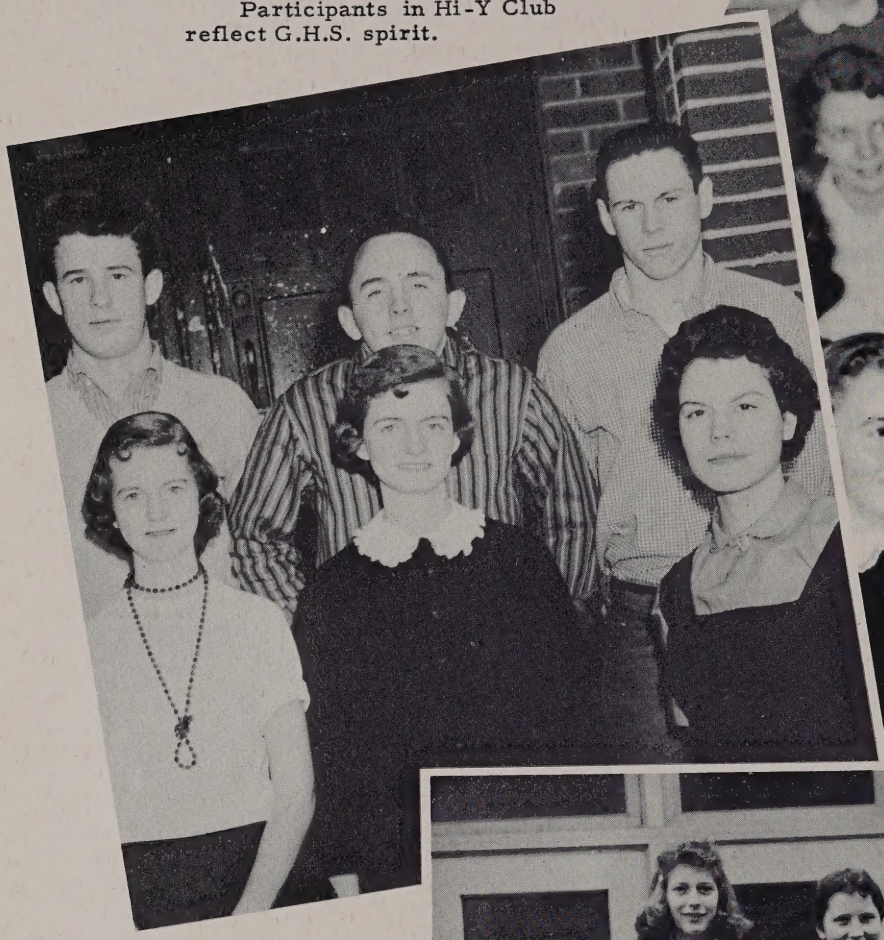
In home economics, practical arts are applied to everyday living.

Every student looks forward to the regular Thursday dancing classes.

AND *Special Classes*

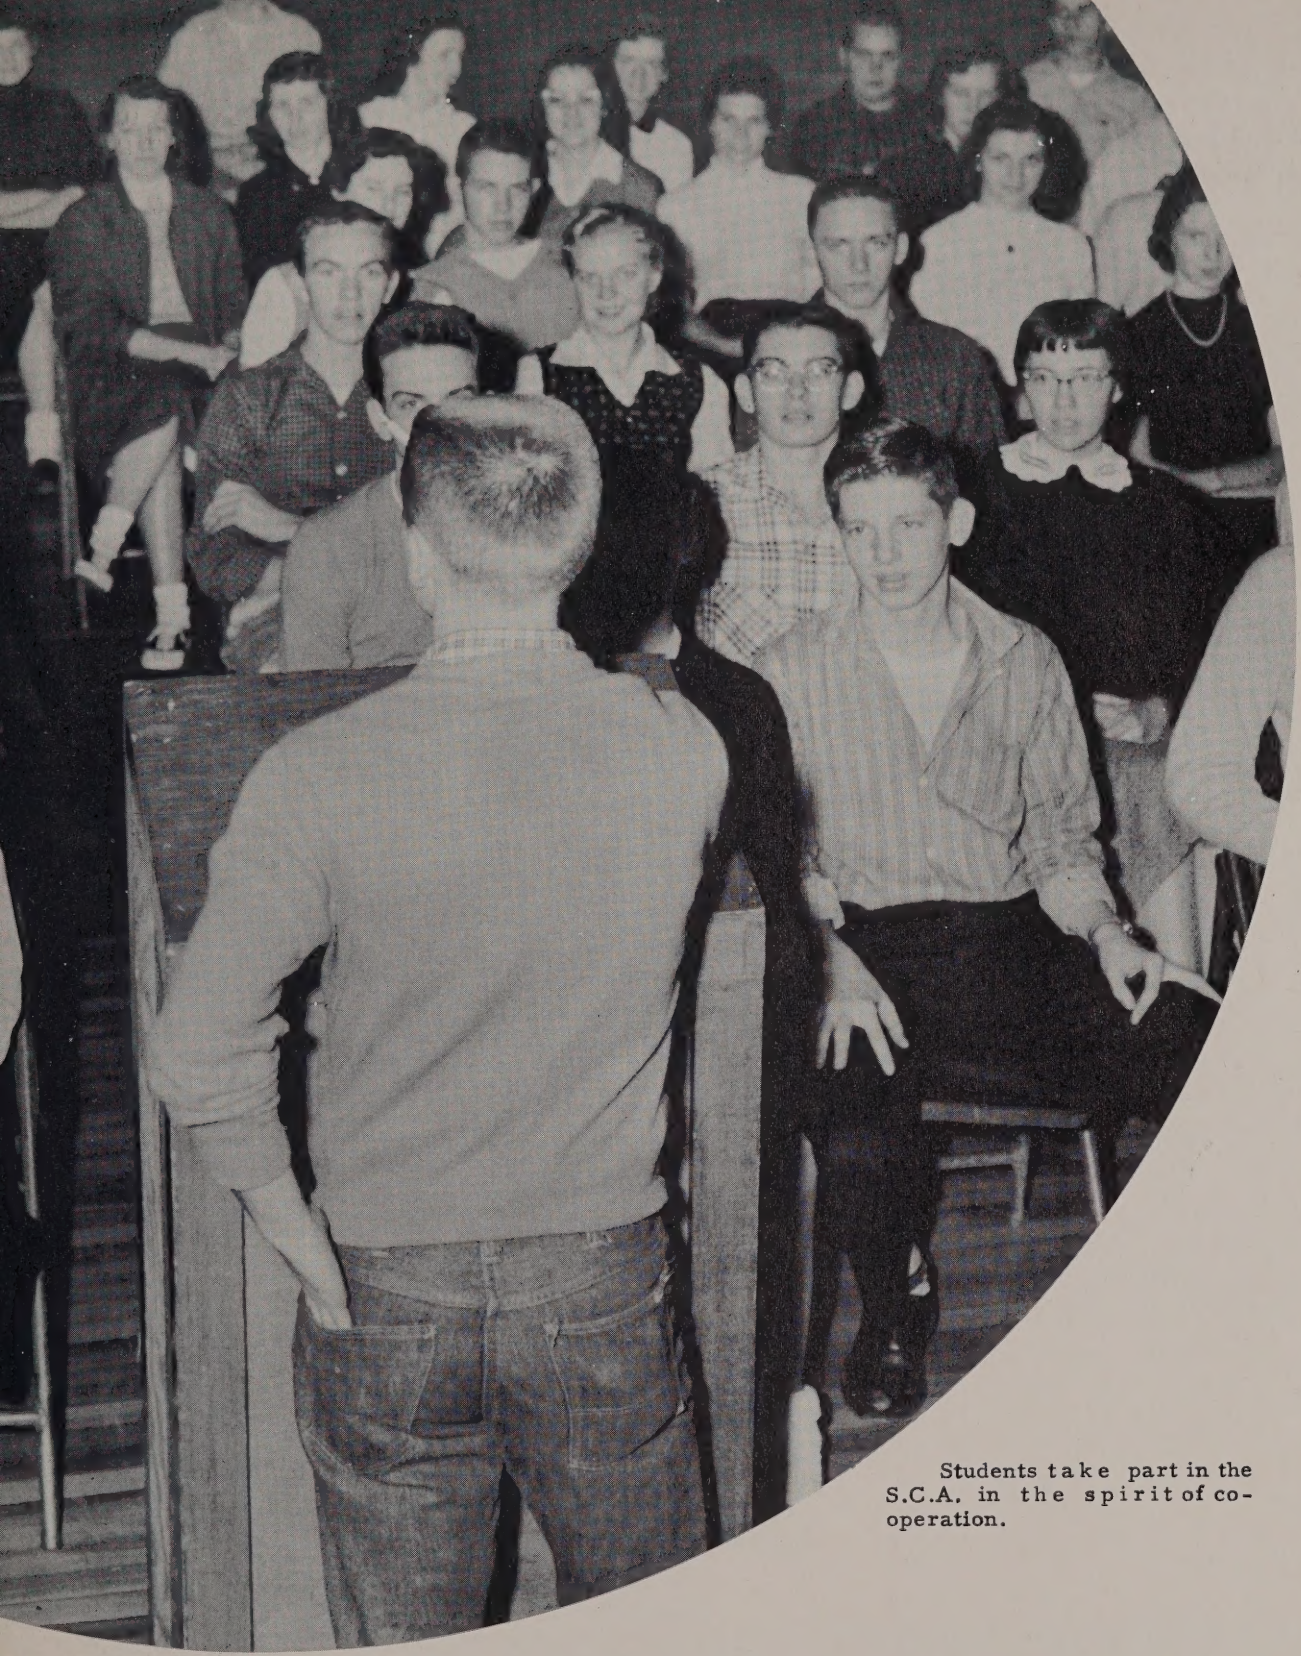
ACTIVE PARTICIPATION

Participants in Hi-Y Club reflect G.H.S. spirit.



Elementary S.C.A. offers opportunity for experience in student organization.

IN



Students take part in the S.C.A. in the spirit of co-operation.

STUDENT ORGANIZATIONS EXEMPLIFIES *G.H.S.* SPIRIT

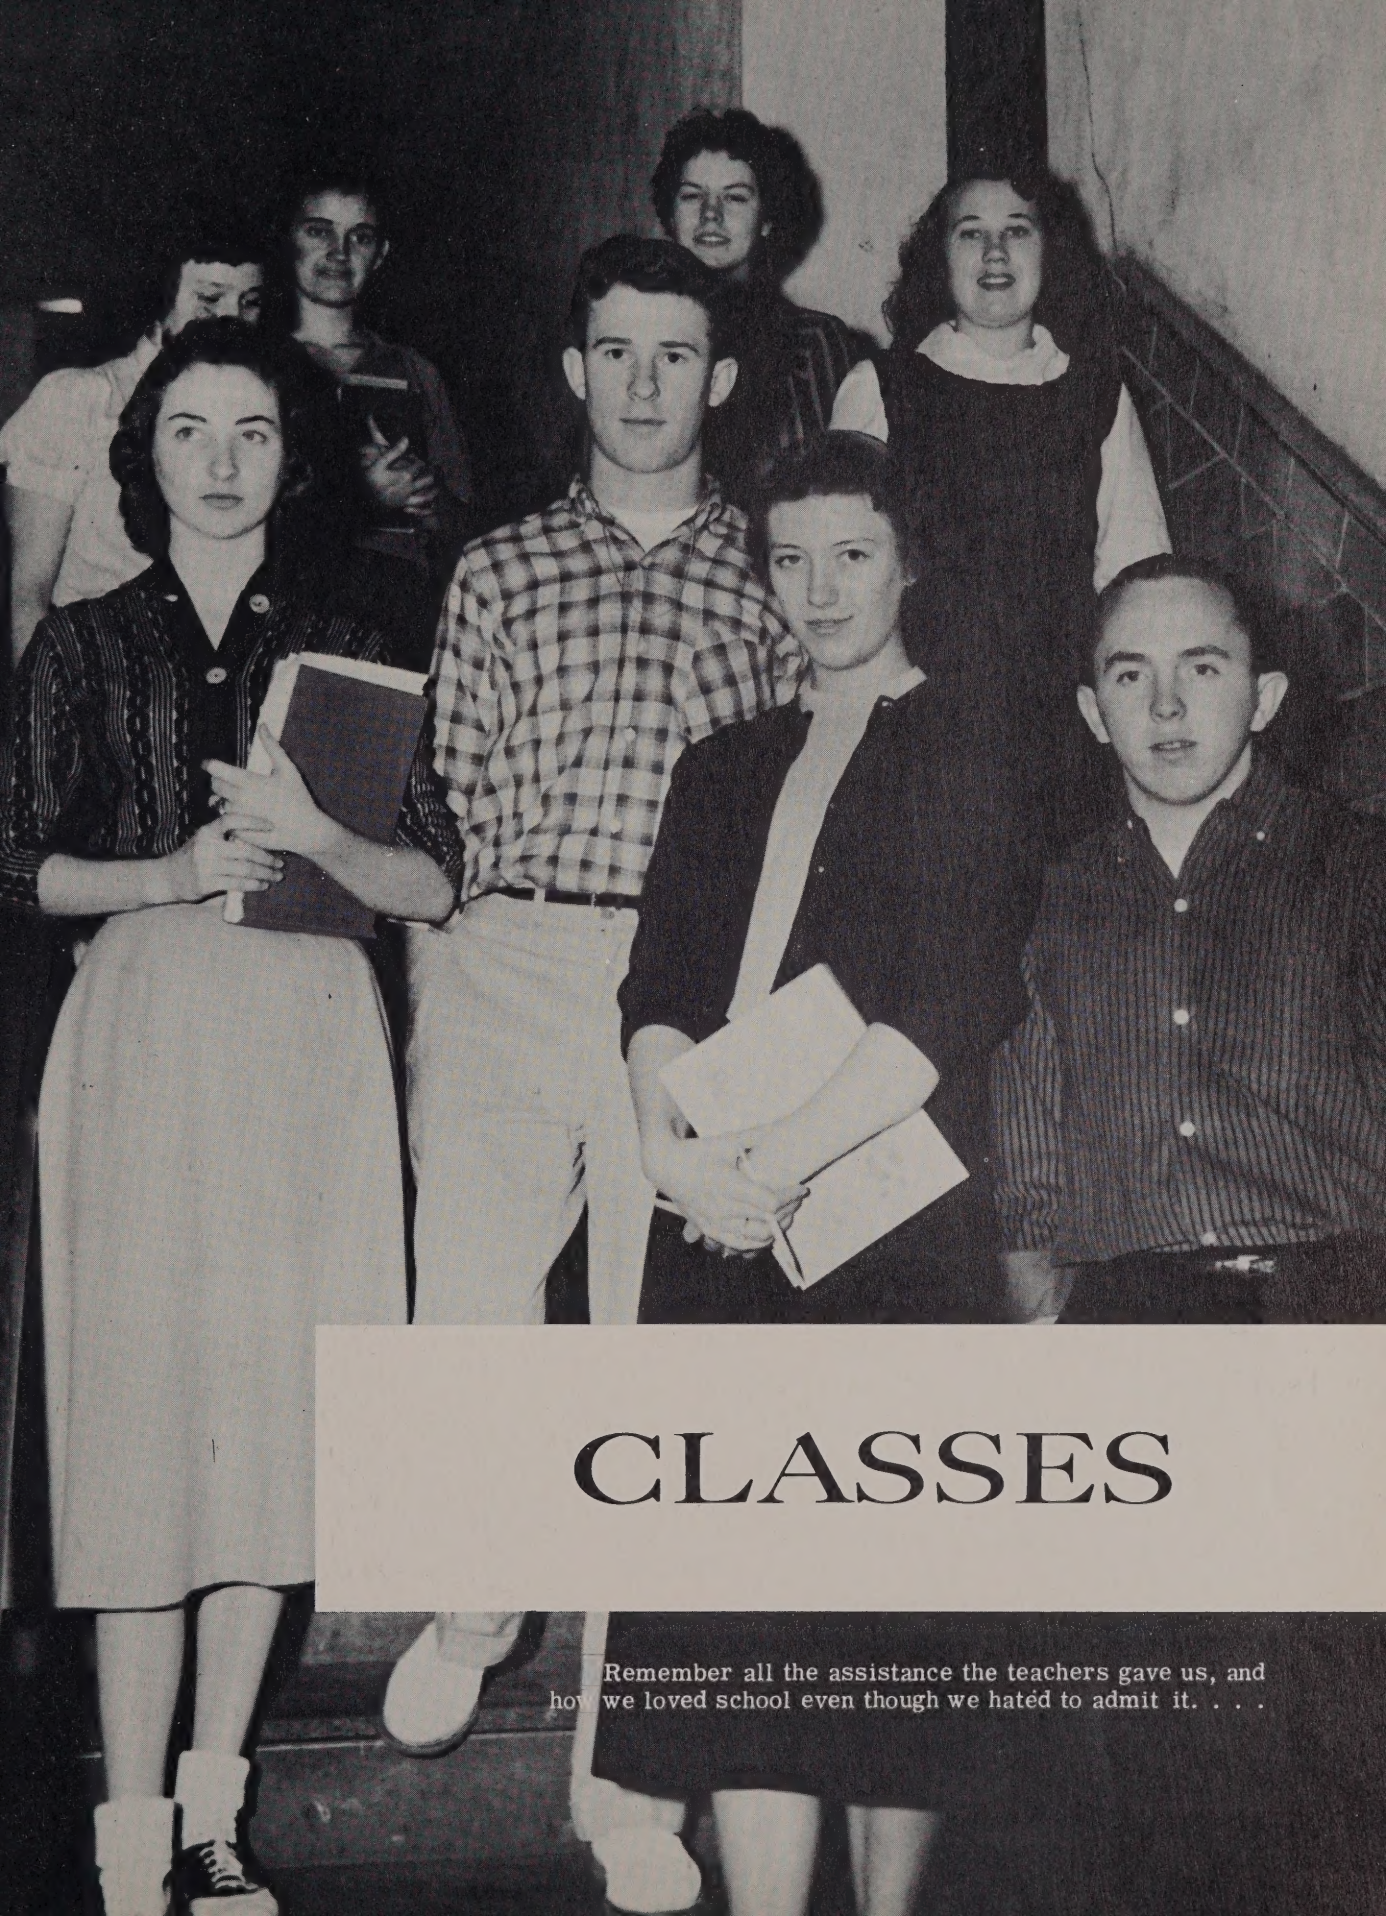
In English words come alive.

In Spanish new sounds enthrall us.

In music sounds are coupled with rhythm and tone to fascinate us.

The Gardenairs enchant us with their lovely music.

And government brings us back to the practical.



CLASSES

Remember all the assistance the teachers gave us, and how we loved school even though we hated to admit it. . . .

OPPORTUNITIES UNLIMITED...
Today, more than ever before, there are great opportunities for engineers, scientists and researchers in industry. Indicative of these great opportunities for young people is the rapidly growing electric utility industry.
If you are a graduating senior, you will want to consider the opportunities in the electric utility industry. If you are an undergraduate, we suggest that you examine your course of studies to make sure it includes math, physics, chemistry and other scientific studies so that you'll be qualified to take advantage of the opportunities industry has to offer. To learn more about these opportunities, contact the personnel supervisor at Appalachian's nearest office. He will be glad to help you.
